Welcome

Congratulations on purchasing your Synology Remote.

Synology Remote works with your Synology Server. With USB speakers connected to your Synology Server, you can use the Synology Remote to play music stored on the Synology Server, from Internet Radio, or from your iPod.

Synology Remote at a Glance

Getting Started

Visit Synology Remote Site

1. Visit <http://www.synology.com/remote> for a complete guide of how to use Synology Remote, firmware download information, and supported USB speakers.

Upgrade Your Synology Server

1. Visit <http://www.synology.com/download> to download the compatible firmware.
2. Upgrade your Synology Server with the downloaded firmware.

Connect the USB speaker

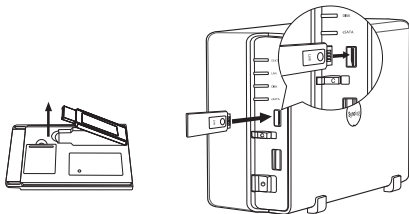

1. Connect the prepared USB speaker to the USB port of Synology Server.

Getting Started

Connect the USB receptor

1. Detach the USB receptor from the Synology Remote. Connect it to any USB port on the Synology Server. (When plugging the receptor, please be sure the metal strips of the receptor are facing the metal strips of the USB inlet.)

Install the Synology Remote battery

1. Insert the remote control battery. Make sure the + side is facing up.

Ready to Go

Playing Music from Your Synology Server

1. Upload audio files to the “music” shared folder on your Synology Server.
2. Press the “Music” button on your Synology Remote.

Listening to Internet Radio Station

1. Press the “Radio” button on your Synology Remote.
- The default Internet radio station will begin to play.

Playing Music from Your iPod

1. Plug your iPod into the USB port on your Synology Server.
 2. Press the “iPod” button on your Synology Remote.
- Music on your iPod will play by the directory sequence.

Managing Your Content

To manage your stored audio files and internet radio channels, go to the page:

"http://Server_IP:5000/audio"

Appendix

Recommended USB Speaker

For recommended USB speaker models, please visit www.synology.com/remote.
